June Speaker Don Risi

Don Risi first became interested in photography when his mom allowed him to take her most prized possession – her Kodak Brownie camera – on a fifth-grade class field trip to a state park.

In 1965, at the age of 15, Don bought his first 35MM SLR from Sears Roebuck & CO. and in 1974, he put together his first black and white darkroom of the bathroom of his apartment.

In 1979, he bought his first Nikon film camera, and in 2004, made the switch to digital with what was at the time Nikon's top-of-the-line 4 megapixel D2h. He now shoots with a pair of Nikon Z7ii mirrorless cameras, but still uses his many of his Nikon F-mount lenses.

From 2017 through 2021, Don was a contributing photographer for *405 Magazine* and its sister publication, *405Home*. During his tenure with the magazine, he had five covers and several thousand published photos ranging from architecture to stories about millennial bars, to portraits of local celebrities, including Janyne Jaroe and Thunder basketball great, Nick Colison.

Don joined the Metro Camera Club in 2006, and since that time has served on the board of directors as secretary, treasurer, membership chairman, and president, and in 2022 was the presenter at the annual Portrait Workshop. In 2013 Don received the Charles Cameron Award for service to the club. (continued on next page)

Don has done several other presentations for the club, and is always willing to share what he knows about photography with anyone crazy enough to listen.
